	and Earth, the development of rubber cushions for track-laying tractors was completed in the summer of 1952. With the preliminary work finished, the rubber plant in Schoenebeck/Elbe received orders to equip 15 tractors with rubber cushioned tracks and to have these tested for a prolonged period of time. Large-scale production was planned if the tests proved satisfactory.		25X1
	Comment. The Schoenebeck Rubber Plant at 5 Schoenebeck/Elbe, was incorporated with the VVB for 1.952. The tractor works in Schoenebeck produce the laying tractor of 80 hp for agricultural and forest tractor is equipped with a perion-rubber fabrium the eight speeds of a maximum speed of about 70 land backward motion, and has a driver's seat and a capable of swinging 180 degrees.	or plastics on 2 July o KS 06-type track- stry purposes. ic endless track,	25X1
